

- 2-6 Players
- Age 6+
- 15 min
- 56 cards + bell

Spot five of a kind and ring the bell! A fast, fruity game of sharp eyes and quick hands.

1 The Goal

Sharp eyes. Quick hands. A very satisfying bell.

Players flip fruit cards onto the table one by one. The moment the face-up cards show **exactly five fruits of the same kind**, be the **first to ring the bell** and scoop up the cards. Gather all the cards to win!

YOU WIN BY...

Collecting the cards

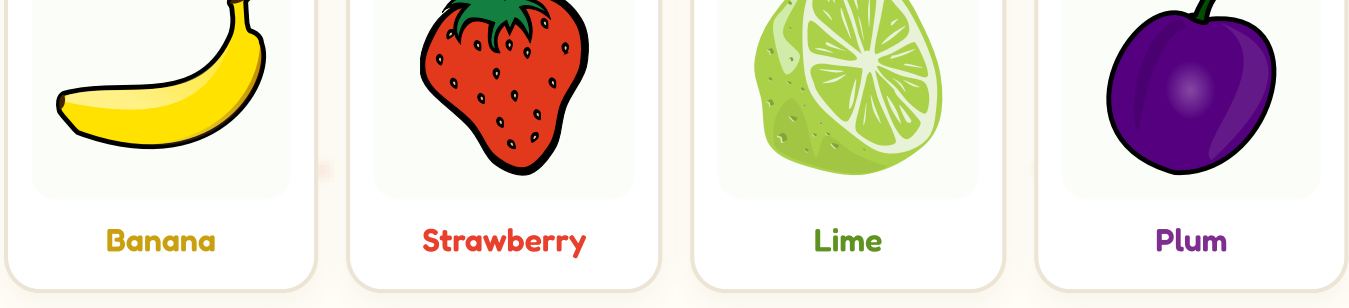

Win by collecting **all** the cards. Short on time? After about 15 minutes, whoever holds the **most** cards is the champion.

2 The Fruit & the Bell

Four juicy fruits — and one very important bell.

Every card shows 1 to 6 of a single fruit. There are four fruits to watch:

...and the cards look like this — from one fruit, all the way up to six:

In the box

56 fruity cards · 1 ringer bell · rulebook (English, Arabic & French)

3 Set Up

Takes about ten seconds.

- 1 **Bell in the middle.** Place the bell at the centre of the table, within reach of **every** player.
- 2 **Deal it all out.** Shuffle all 56 cards and deal them out one by one, face down, until the deck is gone. It's fine if some players have one more card than others.
- 3 **No peeking!** Each player squares up their cards into a face-down pile in front of them — **nobody** looks at their cards.

FAIR PLAY TIP

Flip away from yourself

When you reveal a card, tip it over **away** from you so everyone — including you — sees it at the very same moment. No sneak peeks!

4 Taking Turns

Round and round the table you go.

- 1 **Flip one card.** On your turn, take the top card of your face-down pile and flip it **face up** next to your pile, starting your own open stack.
- 2 **Cover the last one.** Each new card you flip lands on top of your previous one, so only your **newest** card shows.
- 3 **Keep going.** Play passes to the next person, who flips a card too. Now several open cards are on show at once — **watch them closely...**

...because the whole game comes down to one magic number. ٦

5 Ring on Five!

The heart of the game.

5 EXACTLY

As soon as the face-up cards show **exactly five fruits of the same type** — added up across **all** the open cards on the table — slap the **bell!** 🛎
Exactly five. Not four, not six. Other fruits don't matter — you're hunting for one fruit that totals five.

+ = **5 strawberries!**
RING IT!

3 + 2 strawberries = exactly 5 → first to the bell wins the cards.

+ + = **5 bananas!**
RING IT!

Three banana cards: 1 + 2 + 2 = exactly 5 → ring the bell!

+ = **6 plums – too many!**
DON'T RING

2 + 4 plums = six, not five → it's a false alarm. Keep your hand off the bell, or you'll pay the penalty!

6 Win the Cards... or Pay Up

Be quick — but be sure!

CORRECT RING

First to ring takes them all

If you ring on a real five-of-a-kind, you win **every face-up card** on the table. Add them, face down, to the **bottom** of your own pile. Then flip a fresh card to start the next round.

FALSE ALARM

Ring by mistake? Pay a penalty

If you ring the bell and there are **not** exactly five of one fruit, oops! You must give **one card from your pile to every other player** as a penalty. Look before you leap!

AND THE WINNER IS...

Collect everything

Keep ringing, keep winning. The player who **gathers all the cards** wins the game — or whoever has the **most cards** when you decide to stop.

REMEMBER

Exactly five – then ring! 🛎

Fast hands win cards, but a careless ring gives them away. Spot the five, then pounce.
